UPDATE ON CENTER SUPPLIES

The HHS Supply Service Center would like to take this opportunity to thank our customers for their requests on the addition of new products. Our Stock Advisory Committee is continuously evaluating new items to add to our inventory. In this bulletin you will find information on the new additions, supply shortages and items deleted from our inventory due to manufacturer problems. Please make the appropriate changes in your catalog.

Product Update:

Boostrix® has been added to our inventory as an alternative to Adacel®. Boostrix® on December 2008 has expanded their age indication. Both Tdap vaccines can now be administered to adolescents and adults:

- Adacel® indicated for ages 11-64 years.
- Boostrix® indicated for ages 10-64 years

Bayer's Ascencia Elite monitors will no longer be manufactured, strips and solution will be unavailable once our stock is depleted. Customers will be able to upgrade for free their Ascencia Elite to a Contour One or a Breeze2 by just calling Bayer at 1-800-348-8100.

Supply Shortages:

Merck and Company are experiencing product delays on their Adult **Hepatitis B vaccine vial** (Recombivax-HB®) It is estimated it will not be availability to order the remainder of 2009. They still have a few syringes of Hep B available under 6505-00-000-7615. GSK's production and supply of their Hep B Brand (Engerix-B) will be available in both syringes under 6505-00-000-6461 in packages of 5s and single dose vials under 6505-01-559-0924 in packages of 10s and are currently in good supply to meet the demand.

Yellow Fever Vaccine is available under allotment only, three packages of the single dose and 100 of the vials per month.
